

# BEACON COLLEGE BOVEN CAREER DEVELOPMENT CENTER NEWS LETTER

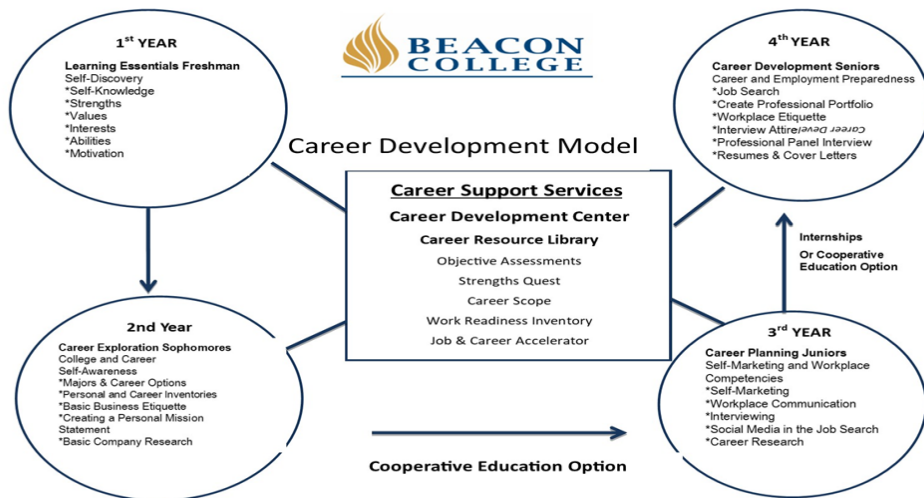

## THE "NEW NORMAL"

### VIRTUAL CAREER PLANNING AND DEVELOPMENT

#### THE CAREER PRACTICUM EXPERIENCE

**Career Practicum Experience (CPE):** The Career Practicum Experience is an observational learning tool that allows students the opportunity to explore their career goals. The Practicum Experience outlines goals and expectations for each career. The outline provides a detailed outlook, as well as, allowing an alternate route for students to complete their internship hours. The Career Practicum Experience and Internship share the same goals of allowing students to implement skills they have learned during their studies. The Career Practicum Experience will be implemented online through Virtual Work-Based Learning.

**Virtual Work-Based Learning (VWBL):** Virtual Work-Based Learning is another tool intended to provide students with opportunities to apply their skills and knowledge learned. VWBL allows students to draw knowledge from previous career development and general education courses within a virtual work environment. The VWBL permits students to earn internship hours for select web-based learning. Students will engage in virtual self-study of their career in order to extend classroom work and deepen post-secondary career knowledge and skills.
