

NAVIGATOR PREP REGISTRATION FORM

Navigator PREP is the country's first virtual transition-to-college program aimed at helping students and their parents find success as they transition towards independence. Focusing on executive functioning (planning, prioritizing, problem-solving, initiating, managing time), social, and emotional regulation skills, the objective of Navigator PREP is to bridge the gap from their current environment to the college of their choosing. As students and parents develop a 'tool box' of skill-based strategies, their Transition Counselor will help frontload essential information regarding their specific college's campus life, academic programming, and support services to ensure there is a proactive action plan that enhances post-secondary independence.
